2. Rate the Training (1 being worst and 5 being best):

   ☆ ☆ ☆ ☆ ☆

3. What did you like most about the training?

   The real-world performance issues discussed as an example along with the concepts really made it helpful to understand the impacts clearly. Thanks

4. What could have been improved or better?

   If there could be more of coding examples that leads to performance breakage cases would have been better but there were some covered which was still helpful.

3. What did you like most about the training?

   Good all round coverage

4. What could have been improved or better?

   Customer issues discussed with respect to GC were very basic. Would have liked to see more fine grained examples where GC was fine tuned (other than the common parameters like heap settings)

Thank You !

We really appreciate your time and feedback.
